PROFILE

Dr. Samuel Kyei is a Professor at the School of Optometry and Vision Sciences, University of Cape Coast, Ghana where he has been teaching and engaged in clinical training of Optometry students for the past 14 years.

Apart from clinical supervision and teaching, he is committed to clinical and experimental optometry and vision science research. His research focuses on ocular therapeutics and pharmacology with specific interest in understanding the impact of orthodox and unorthodox ophthalmic formulations in the management of glaucoma, cataract and allergies in animal models. He has expertise in ocular drug discovery techniques in assessing the utility of unorthodox or indigenous medicine in the management of glaucoma, cataract and ocular allergies. As the PI or co-PI on several departmental-projects, he laid the groundwork for the previous researches by developing effective measures of animal and human studies relevant to drug discovery, safety assessment, monitoring and evaluation in eye care. He has made laudable progress and obtained promising findings from his previous basic sciences studies.

He was the 2018 Roche Collaborative Research Award winner of the Association for Research in Vision and Ophthalmology (ARVO) where he collaborated with Dr Lyne Racette of Department of Ophthalmology and Visual Sciences, University of Alabama at Birmingham, Alabama, USA on the project entitled " Assessing adherence to glaucoma treatment in Ghana."

He have also served in other capacities as the Departmental Examination and Registration officer, School Registration Officer, and a member on committees and boards. He served as the Examinations and Registration Officer for the School Allied Health Sciences at the University and he currently head of Department of imaging Technology and Sonography, School of Allied Health Sciences, University of Cape Coast.

RESEARCH

Interests	Optometry · Ocular Pharmacology · Vision Science · Ocular Health · IPC in Eye Care
Areas	Ophthalmology · Epidemiology · Public Health, Environmental and Occupational Health · Radiology, Nuclear Medicine and Imaging · Molecular Biology · Physiology

RESEARCH SUMMARY

169	1,756	21	59	1.19	11%
Publications	Citations	h-index	i10-index	Field-weighted impact	World top 10%

Counted from the 169 publications listed below, 2012–2026. Field-weighted impact is the mean over the 141 works scored for it; 1.00 is the world average for works of the same field, type and year. 16 of the 141 papers scored for it are among the world's most cited tenth for their field, type and year.

POSITIONS

Lecturer 2011–present
Optometry, University of Cape Coast, Cape Coast, Ghana

EDUCATION AND QUALIFICATIONS

Ph.D. 2013–2016
Optometry, University of KwaZulu-Natal, Durban, South Africa

PUBLICATIONS

Journal articles 165
